Dear António,

All is well here in Iceland thank you, but it took a little time for me to get this information.

The person I recommend is the general director of the project of the aspiring first BR in Iceland: Snæfellsnes. She is a local from that area and attached is information about her and the area, also in Icelandic!

Here is the basic information:

**The general director for Snæfellsnes Regional park is Ms. Ragnhildur Sigurðardóttir, [M.Sc.in](#) Environmental Science from Norwegian University of Life Sciences. She has led several developmental and innovation projects in the fields of education and environment.**

All the best,

Dora

**Efni:** Name of the person from the Ministry of the Environment

Dear Dora, I trust all is fine and healthy with you.

Here things are getting better and finally we can move freely and so we are starting the visits to the Biosphere Reserves with a lot of action ongoing.

I am writing you to ask you to send us the name of the person from the Ministry of the Environment that you mentioned that would be added to the project. We need the name, position and a short cv. With this information we can move on with this formality together with similar situations that we are reporting from other partners.

It would be good if you could provide us this information until the early days of next week

Warm regards

António
