

Environment, Climate Change and Low Carbon Economy Programme

*'Environment Programme'*

European Economic Area (EEA) Financial Mechanism 2014-2021

Call#3 – Projects to 'Enhance sustainable development in Biosphere Reserves'

**09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades  
resilientes**

**Contract Amendment**

The Environment, Climate Change and Low Carbon Economy Programme was created following the signing of the Memorandum of Understanding between Portugal, Norway, Iceland and Liechtenstein, with a view to the implementation in Portugal of the European Economic Area Financial Mechanism (EEA FM) 2014-2021 in the programme areas of Environment and Ecosystems (PA11) and Climate Change Mitigation and Adaptation (PA13). The Environment, Climate Change and Low Carbon Economy Programme – Environment Programme - contributes to the pursuit of environmental policy priorities in Portugal: transition to a circular, resilient and carbon-neutral economy and territorial enhancement.

This Project Contract establishes the rules and conditions for access in national territory to the Financing of the Environment, Climate Change and Low Carbon Economy Programme (85% from EEA FM and 15% from the national contribution), within the scope of EEA FM 2014-2021.

Technical Information:

Programme Name: **Environment, Climate Change and Low Carbon Economy**

Programme Area: **Environment and Ecosystems (PA11)**

Complementary Programme Areas: **Climate Change Mitigation and Adaptation (PA13)**

Financing:

Total: **€28,235,294**

EEA Grants: **€24,000,000**

Portugal: **€4,235,294**

Programme Manager: **Secretary General for Environment**

Donor Programme Partner: **Innovation Norway (IN)**

## Contract Amendment

### 09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes

Between:

The Secretary General for Environment, herein referred to as the Secretary General, legal entity no. 600086330, located at Rua de "O Século", n.º. 63, 2.º, 1200-433 Lisbon, herein represented by its Secretary General, Maria Alexandra Martins Ferreira de Carvalho, appointed by Order n.º. 6782/2018, of 27 June, published in the *Diário da República* (Official Gazette of Portugal), 2<sup>nd</sup> Series, n.º. 133, of 12 July 2018, acting as representative of the Portuguese State and Operator of the 'Environment, Climate Change and Low Carbon Economy Programme' within the scope of the European Economic Area Financial Mechanism (EEA FM) 2014-2021, referred to herein as **1<sup>st</sup> Party or Programme Operator**;

and

The Quaternaire Portugal – Consultoria para o Desenvolvimento, SA, herein referred to as Quaternaire Portugal, SA, with registered office at Rua Tomás Ribeiro, n.º 412, 2º, 4450-295 Matosinhos, legal entity no. 502503661, herein represented by the President of the Administration Board, Maria Elisa Pérez da Silva Babo, acting as Project Promoter, referred to herein as **2<sup>nd</sup> Party or Beneficiary**;

## Clause 1

### Object of the amendment

Pursuant to the Contract concluded in 30/04/2021, aimed to regulate the terms and conditions of technical and operational nature promoted between the Programme Operator (Secretary General for Environment, hereinafter SGE) and the 2ndPARTY, regarding the implementation of 09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes,

It is hereby established the following amendments to the aforementioned Contract.

The previous Partner PC&A - Consultores de Marketing Estratégico will cease to collaborate within this project, from the 01/05/2021, therefore, the elements, further developed in Annex I and II to the Contract that form an integral part thereof, will be amended on what regards:

## Annex I

### 09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes

- a) (...)
- b) (...)
- c) Expected schedule of activities;
- d) Budget by activity and by Partner;
- e) Fact sheets with the main characteristics of the Project Promoter and each Partner;
- f) Partnership Agreement between the Project Promoter and its Partners;
- (...)
- and

## Annex II

### PARTNERSHIP AGREEMENT ON THE IMPLEMENTATION OF PROJECT:

#### 09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes

Retiring of the previous Partner PC&A - Consultores de Marketing Estratégico from the Partnership Agreement.

## Clause 2

### Entry into force

This amendment has immediate effects, from the date of its signature, and remains in force for as long as the respective contract does.

This Amendment, which will be signed by both Parties, is executed in two counterparts, both of which are valid as originals, with one to be retained by each of the Parties.

Lisbon, July , 2021.

## Annex I

### 09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes

#### a) Objectives of the Project

The main objective of the Project is to value the territories of the Biosphere Reserves as living sustainability laboratories, promoting the quality of life of their inhabitants, particularly in the Portuguese context, and, simultaneously, to increase their visibility, knowledge and management capacity through instruments that promote the affirmation/ praise/ acknowledgement and identity of the 11 territories classified as Biosphere Reserves in Portugal.

#### b) Activities and products to be developed

File "Contract\_09\_CALL#3\_Anexo I\_Rev.03\_Sheet '09\_Call#3\_Indicators (Rev.01)'

#### c) Expected schedule of activities

File "Contract\_09\_CALL#3\_Anexo I\_Rev.03\_09\_Sheet '09\_Call#3\_Schedule (Rev.01)'

#### d) Budget by activity and by Partner

File "Contract\_09\_CALL#3\_Anexo I\_Rev.03\_09\_Sheet '09\_Call#3\_Budget (Rev.03)'

e) **Fact sheets with the main characteristics of the Project Promoter and each Partner**, including Partner Entity PC&A - Consultores de Marketing Estratégico which collaboration started on 12-11-2020 and ended on April 30, 2021.

#### f) Project Promoter:

Contract Amendment

/ 10

**Contact person:** Maria Elisa Pérez da Silva Babo

**Contact person's email address:** elisab@quaternaire.pt

**Department:** Board of Director

**Mission:** Ensure the overall management of the project and its technical coordination, as well as national and international cooperation, being also responsible for the areas of capacity building and the socio-economic system

**Role to play in the Project:** Develop the activities associated with the areas of the role's responsibility, with particular emphasis on the pilot actions "BR shop network and virtual shop" and "PBR Tourist Itineraries" (actions: 1, 2, 3, 7, 8, 9, 17, 20, 31, 32, 33, 34, 35, 38, 39, 40, 41, 42, 44, 45, 46, 47, 48, 49, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 71, 72 e 77), participate in activities related to listening, information provision and promotion of the Project (actions: 4, 5, 6, 10, 11, 12, 13,), in addition to the role of governance and boosting of the Project.

**Experiences relevant to the Project:** QP is a company with solid experience in consulting and project coordination, mostly in Portugal (Central, Regional and Local Administration and institutions, sectoral or territorial based), which also has international experience (Europe, Africa, Asia). Over its 30 years, the company consolidated a set of methodologies in the areas of planning and socio-economic and territorial development, employment and skills, projects and program evaluation (with special relevance in the context of the Funds) stand out. European Structural Funds).

QP has a permanent team of around 20 specialized consultants, with diverse academic backgrounds (economics, architecture, urbanism, landscaping, sociology, anthropology, geography, management and public administration, among others), which allows the development of holistic approaches in the domains of territory and environment (planning, planning and management, environment, ecology, landscape, conservation and sustainable use of natural resources), socio-economic development (innovation, tourism, culture and creativity, social economy), training, public management and governance (education and training, formulation of public policy strategies and instruments, institutional cooperation, evaluation and monitoring of projects and policies).

Within its multifaceted experience, the company coordinated several territorial planning plans (in the various categories of territorial management instruments); municipal and regional strategic plans; plans and projects for the valorisation of endogenous resources, particularly cultural and natural assets (including UNESCO Lists processes), sometimes with a focus on tourism promotion; assessment studies on training needs in the territorial context; training and capacity building programs. The diversity of planning plans carried out throughout the Portuguese territory, the Mainland and the Islands, and the recent elaboration of action plans for the Biosphere Reserves (RB) of the Autonomous Region of the Azores must be underlined. Within the scope of this project, QP brings together a multidisciplinary team, with experience and knowledge appropriate to the requirements and challenges of the BR and the MAB Program, which is complemented by the technical and scientific skills of the partners. Technical-scientific coordination will be ensured by Dr. António Abreu, a biologist, with extensive experience in the field of BR and the UNESCO MAB Program, having been, as a senior UNESCO official, responsible for the management of the MAB Program and its World Network. As an expert, he coordinated BR applications, in Portugal and internationally, carried out assessment work, training managers and drafting management plans.

**Legal Representative:** Cláudia Margarida Gonçalves Cavadas

**Contact person:** Helena Maria de Oliveira Freitas

**Contact person's email address:** hfreytas@uc.pt

**Department:** Department of Life Sciences of Faculty of Sciences and Technology of University of Coimbra

**Mission:** Head of ecosystem services thematic area

**Role to play in the Project:** Develop activities related to the area of the role's responsibility, with particular emphasis on the pilot actions "Valuation of ES (attribute value) and its interconnection with associated economic sectors" and "Use of key ES in mitigation and adaptation to climate change in BR" (actions: 15, 16, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 34, 51, 52, 54, 73 and 79) and participate in the pilot action "PBR Tourist Itineraries" and activities related to education, training, cooperation, listening, information provision and promotion of the Project (actions: 1, 2, 4, 5, 6, 7, 8, 10, 11, 12, 13, 20, 35, 40, 41, 42, 45, 46, 47, 48, 49, 55, 61, 62, 63, 64, 65, 66, 67, 68, 69, 72 e 77).

**Experiences relevant to the Project:** The University of Coimbra is a university institution created in 1290, and its fundamental pillars are teaching, research and the transfer of knowledge. The University of Coimbra has been part of the UNESCO World Heritage Site "University of Coimbra, Alta and Sofia" since 2013 and integrates several UNESCO initiatives, namely with the UNESCO Chair on Biodiversity and Conservation for Sustainable Development, in the field of Natural Sciences (2013). The main objective of this Chair is to implement and support an integrated platform for research, training, information and communication of science in the fields of biodiversity, ecology, conservation and sustainable use of biological resources, focusing on Portuguese-speaking countries. This Chair has the scientific expertise and institutional framework of the Centre for Functional Ecology (CFE) of the University of Coimbra and its researchers, an R&D unit that confers the technical, scientific and logical solidity to ensure active participation in the technical and scientific monitoring of plans for sustainable development of the Portuguese Biosphere Reserves Network and the evaluation of ecosystem services. CFE is composed of researchers from all fields of ecology, integrating knowledge from genes to biomes with the aim of studying the mechanisms responsible for maintaining biodiversity and for the composition, structure and functioning of biological communities and ecosystems. CFE has a strong commitment to knowledge transfer to the general public as well as the productive sector, with an emphasis on the sustainability of local territories and communities. With ecology in its scientific matrix, producing knowledge in the areas of global change, water and food management, ocean protection, biodiversity, ecosystem services, among others, CFE researchers are encouraged to make a greater commitment to sustainable development, in a concerted, transdisciplinary, transnational and translational vision, supported by knowledge sharing and open science, and fully incorporating the United Nations Development Agenda 2030.

UC and CFE have extensive and long experience not only in national projects, but also in European and international projects (such as Horizon 2020; Biodiversa, Erasmus+, European Research Fund for Coal and Steel, African Union), and assume as a joint mission to continue pushing the boundaries of knowledge in all areas of Ecology and its interfaces with technology and society in a permanent commitment to produce a true Science for People and for the Planet. The CFE-UC team is coordinated by Professor Helena Freitas, professor in the area of Biodiversity and Ecology at the University of Coimbra, holder of the UNESCO Chair in Biodiversity and Conservation for Sustainable Development, and coordinator of the Centre for Functional Ecology. Professor Helena Freitas is a member of the Mission Board of the European Commission for Climate Change Adaptation, including Societal Transformation) and is Portugal's Focal Point for IPBES (Intergovernmental Platform for Biodiversity and Ecosystem Services).

**Department:** NOVA FCSH

**Mission:** Head of memories and identity thematic area, as well as the digital platform

**Role to play in the Project:** Develop the activities associated with the areas of the role's responsibility, with particular emphasis on the pilot actions "Memories and Identities", "Creation of memory spaces and community" and "Citizen Science for sustainable BRs" (actions: 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 34, 36, 37, 43, 70, 79 e 81) and participate in the pilot action "PBR Tourist Itineraries" and activities related to training, communication, awareness-raising, listening, information provision and promotion of the Project (actions: 1, 2, 20, 35, 40, 41, 42, 45, 46, 47, 48, 49, 55, 61, 62, 63, 64, 65, 66, 67, 68, 69, 72 e 77).

**Experiences relevant to the Project:** Universidade NOVA de Lisboa (NOVA) is one of the three public Universities located at Lisbon and it is the best ranked Portuguese university in the 'QS Ranking 50 under 50' (41th place). The university includes, besides the Rectorate: one school of public health, three institutes, and five schools, including NOVA School of Social Sciences and Humanities (NOVA FCSH), which will host this project. NOVA FCSH develops cutting-edge research in a wide range of scientific areas within its 16 units of Research and Development, including the Institute of Contemporary History (IHC), the research unit hosting the current proposal.

NOVA FCSH's experience in the areas of History and Digital Humanities includes the participation in the following initiatives and research projects:

1. Coordination of the research project "Memory for all"
2. Host of the UNESCO Chair on Oceans' Cultural Heritage
3. Coordination of the project Laboratório de História
4. Host of the Digital Humanities Lab (DH\_Lab)
5. Coordination of the project L3 - Lisboa Laboratório Comum de Aprendizagem
6. Participation in the H2020 project DESIR - DARIAH ERIC Sustainability Refined
7. Participation in the Erasmus project Living Rivers – Caring and protecting the life and culture around rivers and streams
8. Participation in the project MemoriaMedia "e-Museu do Património Cultural Imaterial"

NOVA FCSH research teams are composed of around 2 000 senior and junior researchers. Some of the latter are carrying out their own PhD research within the framework of the institution's broader projects.

NOVA FCSH provides access to ROSSIO, infrastructure for Social Sciences, Arts and Humanities (SSAH) for the dissemination of digital content, providing a distinctive set of sources and resources representing the richness and diversity of the history, society and Portuguese cultural heritage. There are currently over 80 basic and applied research projects ongoing in NOVA FCSH, funded by several national and international programmes (e.g. Marie Curie Actions, ERC, H2020 Societal Challenges, ERASMUS+) and by several other public and private institutions (e.g. Santander Totta, Gulbenkian Foundation).

**Contact person's email address:** cerqueira@ipn.pt

**Department:** Knowledge Valorization and Innovation Department

**Mission:** Head of innovation and entrepreneurship thematic area

**Role to play in the Project:** Develop the activities associated with the areas of the role's responsibility, with particular emphasis on the pilot action "Virtual incubation programme in Portuguese BRs" (actions: 18, 19, 50 e 53) and participate in the pilot action "PBR Tourist Itineraries" and activities related to education, training, listening, information provision and promotion of the Project (actions: 1, 2, 4, 5, 6, 7, 8, 10, 11, 12, 13, 20, 35, 40, 41, 42, 45, 46, 47, 48, 49, 55, 72 e 77).

**Experiences relevant to the Project:** Instituto Pedro Nunes (IPN) is a private non-profit institution that aims to promote the transfer of innovation and technology, establishing the link between the scientific and technological environment and the productive fabric. Created as an initiative of the University of Coimbra (UC) in 1991, it develops its activities on three fronts that reinforce and complement each other:

1. Research and technological development
2. Incubation and acceleration of technology-based enterprises
3. Specialised training

IPN provides the business environment with multidisciplinary support in the creation of innovative products and processes, which involves technological development, search for sources of funding, support in intellectual property (IP) issues, development of the business plan, support in matters such as management, marketing, quality or access to international markets. The IPN team is coordinated by Carlos Cerqueira, Director of VCI, Department for the Valorisation of Knowledge and Innovation of IPN. In recent years, he has been responsible for coordinating more than ten technology transfer projects and supporting technology-based entrepreneurship, especially projects in the area of innovation, such as the GAPI3 network, which brings together the main Portuguese universities. Currently, he is Director of ESA Space Solutions Centre Portugal, which includes the European Space Agency Incubation Centre (ESA), Broker of Technology Transfer and ARTES Ambassador Platform. He is also the founder and coordinator of the INEO START acceleration programme, which since 2010 has brought together more than 80 startups and about 1000 participants, including participants, mentors and staff (<http://start.ineo.pt/>). At the same time, he teaches at the Faculty of Sciences and Technology of the University of Coimbra (FCTUC), as Visiting Professor, in Management and Innovation Processes, of the Bachelor degree in Computer Engineering. He also collaborates with the Faculty of Economics of the University of Coimbra, in the Master's Degree in Social Intervention, Innovation and Entrepreneurship, Master's Degree in Marketing and MBA in Marketing.

**Mission:** Co-Head of awareness-raising

**Role to play in the Project:** Develop the activities associated with the area of the role's responsibility, with particular emphasis on holding the BR Olympiads (actions: 74, 75 and 76) and participate in the pilot action "PBR Tourist Itineraries" and in activities related to involvement, mobilisation and participatory methodologies, listening and provision of information on the Project (actions: 1, 2, 4, 5, 6, 7, 8, 10, 11, 12, 13, 20, 35, 40, 41, 42, 45, 46, 47, 48, 49, 55, 61, 62, 63, 64, 65, 66, 67, 68, 69, 72 e 77).

**Experiences relevant to the Project:** The Portuguese Biologists Association is the professional public association of those who practice their profession as a biologist, with a title conferred by the Association. It is a legal person governed by public law and is subject to a regime of public law in the performance of its public tasks. The Association has legal personality and enjoys administrative, financial and patrimonial autonomy and aims to ensure the defence and promotion of the profession as a biologist, the improvement and progress of Biology in the scientific, pedagogical, technical and professional fields, the safeguarding of the ethical principles that guide the biologist profession and the protection of the professional interests of its members and public interests related to the professional performance of biologists. Among the various tasks of this entity, these include:

1. To promote the development and well-being of society by safeguarding the proper practice of the biologist profession, in particular with regard to quality of life and the environment;
  2. To carry out training and information actions aimed at defining, promoting and developing the professional activity of biologists, their role in society, teaching and training in Biology or any aspect in the field of biological sciences.
- In the context of this last point, the Portuguese Biologists Association has a Teacher Training Centre that carries out annually dozens of certified training actions for biology teachers, conferences, information publishing by digital means and organises the Portuguese Biology Olympiad since 2009, which involves the participation of more than 20,000 students annually, making it one of the most participated science competitions in Portugal and even the European Union. The Portuguese Biologists Association has a College of Education, is in constant contact with many hundreds of teachers, training and lectures held in schools, for teachers and students and is well known to biology teachers through the projects it develops, particularly the Biology Olympiad, the Biogénus Kit and the training actions, which include biology matinees (short-term actions). The team of the Portuguese Biologists Association is coordinated by José António Matos, biologist, doctorate in molecular genetics and researcher in the field of genetics and plant breeding, and a member of the Portuguese Biologists Association since 2013. He is the coordinator of the Portuguese Biology Olympiad since its creation in 2009, a science competition in Biology for students from 9th to 12th grade, which takes place annually involving more than 700 schools and 20,000 students from all over the country, contemplating two qualifiers and a final phase. He was also the Coordinator of the Ibero-American Biology Olympiad (OIAB) during the period 2012-2018 and is currently an elected member of the Steering Group of IBO (International Biology Olympiad). In addition to the Portuguese Biology Olympiad, he was coordinator of two editions of the OIAB (2012, in Cascais and 2017, in Ponta Delgada), chair of the EUSO2019 Organising Committee (European Union Science Olympiad), which took place in Almada and had the participation of 25 countries of the European Union. He is also the coordinator of the IBO2021 scheduled to take place in Lisbon

in July 2020, with the estimated participation of delegations from 80 countries. Within the framework of the Portuguese Biology Olympiad, the Portuguese Biologists Association has a network of contacts of more than 1000 teachers from all over the country and is also responsible for the training plan and laboratory training of students representing Portugal in the various competitions abroad (OIAB, IBO and EUSO). He is also a certified trainer, responsible for numerous training courses of biology teachers in Portugal and abroad. He coordinated the Biogénus Project that allowed for the development of 1500 kits for laboratory experiments of molecular genetics in Schools with secondary education in the area of Biology, which were distributed in public schools. In 2015, this project was awarded the Viva/Montepio Science Award, in the category of Education.

**Legal status:** Association; Non-Profit Organization

**Legal Representative:** Inês Filipa Abreu de Castaño

**Contact person:** : Inês Filipa Abreu de Castaño

**Contact person's email address:** inesabreucastano@gmail.com

**Department:** Direction

**Mission:** Co-Head of awareness-raising

**Role to play in the Project:** Develop the activities associated with the area of the role's responsibility, with particular emphasis on the pilot action "BioKeepers: Club of BR Friends and Caregivers" (actions: 78 e 80) and participate in the pilot action "PBR Tourist Itineraries" and in activities related to involvement, mobilisation and participatory methodologies, listening and provision of information on the Project (actions: 1, 2, 4, 5, 6, 7, 8, 10, 11, 12, 13, 20, 35, 40, 41, 42, 45, 46, 47, 48, 49, 55, 61, 62, 63, 64, 65, 66, 67, 68, 69, 72 e 77).

**Experiences relevant to the Project:** KEEP is a private non-profit legal entity that was established on 18 June 2018. The Association has as its object the development of research activities, knowledge transfer and consultancy in the fields of Social Sciences, Arts, Humanities and Life Sciences, including training and awareness-raising programmes and initiatives to promote and appropriate knowledge within society. KEEP also aims to develop studies and projects in the area of territory, ecology and environment, sustainable development, community cohesion and information curation. In fulfilling its mission, it assumes as its main objective the promotion of knowledge as a baseline for development, cohesion and sustainability, in an open science context, focusing its activity on 9 Axes:

1. KNOWLEDGE: Promote the democratisation of knowledge in accordance with the purposes of open science.
2. CO-CREATION: Promote and streamline collaborative practices of building and sharing knowledge with particular attention to territories and contexts.
3. PATRIMONIALISATION: Promote reflection on local heritage, proposing innovative practices and processes of patrimonialisation, involving communities and local agents in the definition of strategies for safeguarding and dissemination of heritage values.

4. **EDUCATION:** Promote actions that contribute to cultural, heritage and environmental education, seeking to halt processes of environmental and patrimonial degradation, fostering a participatory and conscious context of the appreciation of endogenous resources.
5. **PROMOTION:** Promote knowledge, valorisation and dissemination of cultural and environmental heritage, considering local cultures and identities, respecting and fostering good practices in activities of enjoyment and tourism.
6. **QUALIFICATION:** Contribute to the creation of critical mass in the reflective context of sustainability, in a holistic perspective and taking into account territorial and human factors.
7. **INNOVATION:** Contribute to a creative context and fostering innovation, specifically in the area of curatorship and information technologies, along with a critical approach to the ethical challenges posed in research and technical and technological solutions.
8. **WELL-BEING:** To value and promote knowledge as a baseline for a more just and tolerant society and committed to improving living conditions, based on peace and citizenship, with a view to equal opportunities for enjoyment and access to knowledge, culture and physical, psychic and spiritual integrity.
9. **SUSTAINABILITY:** The Sustainable Development Goals represent an opportunity for us to build and support initiatives capable of providing a better life for all.

With the aim of fostering and boosting collaborative practices of building and sharing knowledge with particular attention to local territories and contexts, KEEP has worked closely with different entities seeking to converge missions and optimising resources, experiences and practices. The KEEP team is coordinated by Inês Castaño, graduated in Painting (FBA-UL, 2008), Master in Museology (NOVA FCSH, 2013) and, since 2015, Researcher at the Institute of Contemporary History of FCSH-NOVA and PhD student in Contemporary History at the same University where she has been focusing on issues such as public history, collaborative research or responsible research and innovation. She is a founding member of KEEP, having integrated its management in 2018. In this context, she followed the implementation of the environmental education project Todos na Rede and the initiatives Memórias da Aldeia and Memórias da Lagoa d'Óbidos with a view to valuing the identity of communities through heritage. In parallel, she taught and coordinated several cultural projects with a close relationship between art and education, of which stands out the educational programme of the ZDB Gallery, the Aguêdê-Alê cultural programme developed in São Tomé Príncipe in partnership with different local agents and the projects Soya Kutu, Novos Mapas and Veículo de intimidade (in partnership with Luísa Seixas). She was manager and researcher of the project L3 – Lisboa Laboratório Comum de Aprendizagem (scientific coordination of Professor Maria Fernanda Rollo and Maria Inês Queiroz), adviser to IHC NOVA/FCSH management and manager of the DESIR project funded by the European Commission. She recently joined the research team of the project Treasuring – Environmental, historical and social dimensions of conservation in the Gorongosa National Park: implications for safeguarding biodiversity and sustainable development. Currently, she collaborates with the Programme Memória para todos in multiple projects, following since 2015 all the activities of the Memória das Avenidas project, in a close relationship between NOVA FCSH and different local players of the Parish of Avenidas Novas.

**Contact person:** Terje Restad

**Contact person's email address:** terje.restad@uib.no

**Department:** Institutt for biovitenskap

**Mission:** Active participant in ecosystem services thematic area and international cooperation

**Role to play in the Project:** Develop the activities associated with its participation, in collaboration with the University of Coimbra, with particular emphasis on the pilot action "Use of key ES in mitigation and adaptation to climate change in BR" (actions: 15, 16, 21, 22, 23, 24, 26, 28, 29, 51 e 52) and participate in activities related to the education, cooperation and communication of the Project (actions: 54 e 55).

**Experiences relevant to the Project:** The Universitetet i Bergen (UiB) is a young and modern university with about 18,000 students and 4,000 professors and staff, making it a medium-sized European university. Seven faculties cover most traditional university disciplines. Within the faculties are included 40 different specialised departments, multidisciplinary research centres and institutes. The University is involved in the European Union framework programmes for research, technological development and innovation and has been designated as "European Research Infrastructure" and "Research Training Site" in various scientific fields. Since 1997, more than 500 European researchers (teachers, senior researchers, postdoctoral students and doctoral students) have visited Bergen on EU scholarships, which contributes to making Bergen one of the most international universities. UiB is involved in 109 projects of the 7th Framework Programme - 38 coordinated by UiB, among them UiB hosts 7 ERC Advanced Grants, 1 ERC Starting Grant and 1 ERC Synergy Grant. To date (2020-05-01), UiB has received 138 projects in H2020, of which 49 are coordinated by UiB - 8 ERC StG, 7 ERC CoG, 3 ERC AdG, 21 MSCA-IF, 1 MSCA-RISE, 2 BG, 1 ICT, 4 in Societal Challenges, 1 FET-OPEN and 1 Health programme. In addition, UiB also hosts National Centres of Excellence granted by the Norway Research Council - Centre for Intervention Science in Maternal and Child Health, Centre for Cancer Biomarkers, Birkeland Centre which includes Research Health Records, Remotely Operated Vehicles for Space Science, Centre for Geobiology and Centre for Early Sapiens Behaviour. In 2014, the Norway Research Council granted funding to UiB for the development of marine research infrastructures, Earth Surface Sediment Laboratory and Norway's Nuclear Magnetic Resonance Platform. The UiB team is coordinated by Professor Inger Elisabeth Måren, Associate Professor in Applied Ecology at the Department of Biological Sciences of the UiB and the UNESCO Chair for Sustainable Heritage and Environmental Management (2017 -). With a PhD in Vegetation Ecology, her current research focuses on the dynamics of coupled human and natural systems, the so-called socio-ecological systems, including sustainable land use, natural resource management, ecosystem services, agroecology and sustainable food systems. She has worked in a variety of contexts, including Europe, Asia, North America and Africa, which is reflected in an active participation in various international cooperation networks. She is currently responsible for several interdisciplinary courses on sustainability at UiB and a member of the UiB Working Groups on Global Challenges and Education in the SDG framework for 2030. She also has experience in the implementation of several projects funded by the Norway Research Council under the FRIMUF, ENVIRONMENTAL AND CLIMATE RESEARCH and MILJØFORSK programmes. So far, she has supervised 1 postdoctoral, 7 doctoral candidates, 15 master's students and 8 bachelor degree students. Recently, she was involved in the development of the first UNESCO Biosphere Reserve in Norway, in collaboration with the Norwegian Environment Agency. She is also a member of the Norwegian Commission of the MAB (Man and Biosphere) (2020-2024), as well as the steering group of the UNESCO Creative City of Gastronomy in Bergen. Similarly, she participates regularly in activities organised by the World Network of Biosphere Reserves, NorMAB and EuroMAB.

**Legal Representative:** Rune Heradstveit

**Contact person:** Kari Evensen Natland

**Contact person's email address:** kari@nordhordland.net

**Department:** Nordhordland UNESCO Biosphere

**Mission:** Active participant in ecosystem services thematic area and international cooperation

**Role to play in the Project:** Develop the activities associated with its participation, in collaboration with the University of Coimbra and the University of Bergen (actions: 21, 24, 26, 51 e 52) and participate in activities related to the education, cooperation and communication of the Project (actions: 54 e 55).

**Experiences relevant to the Project:** Nordhordland Utviklingsselskap IKS (Development Company) (NUI) belongs to the nine municipalities of Alver, Austrheim, Fedje, Gfleen, Masfjorden, Modalen and Osterf, all members of the Nordhordland Regional Council. The collaboration holds the brand Nordhordland Region. NUI acts as the administration of the Regional Council and carries out tasks and projects adopted by the Council. The objectives of regional collaboration are as follows:

1. Strengthen the quality of life of those who live here
2. Create a good quality of life for residents with leisure, work and good health;
3. Strengthen the interaction between the region and the world around
4. Save with the use of public resources
5. Contribute to environmental development and protection

NUI chose to focus its operations on four main strategies:

1. Marketing of the region
2. Improvement of communications
3. Business development and workplaces
4. More efficient service management and production

Activities in the Nordhordland region will contribute to the development of this territory in economic, social and cultural terms. Through various projects and activities commissioned by the Regional Council or the Council of Ministers, NUI contributes to an effective and coordinated management of intermunicipal and regional measures. One of the main responsibilities of NUI is the administration of the UNESCO Biosphere Reserve of Nordhordland. Part of the NUI team is Kari Evensen Natland, a postgraduate in Travel and Tourism Business, with emphasis on territorial planning and development (Lillehammer University College), with additional training in coaching, entrepreneurship and rural development. Over the past seven years, Natland headed the project that led to the designation of Nordhordland as a UNESCO Biosphere Reserve - the first in Norway. During this period, she participated in many international projects, participated in the UNESCO Branding Team and was a member of the MAB Steering Committee, which enabled the establishment of a wide national and international network.

**Department:** Icelandic National Commission for UNESCO

**Mission:** Active participant in international cooperation

**Role to play in the Project:** Develop activities associated with their participation, in collaboration with the Promoter and other partners (actions: 54 e 55).

**Experiences relevant to the Project:** Iceland joined UNESCO in June 1964 and its UNESCO National Commission was established in May 1966. The UNESCO National Commission is based in the Icelandic Ministry of Education, Science and Culture, and its seven members are appointed by the Minister of Education, Science and Culture for a period of four years. The UNESCO National Commission advises the Icelandic government on matters related to UNESCO and intends to contribute to raising awareness in Iceland about UNESCO and its work.

Currently, the UNESCO National Commission of Iceland develops its own programmes in the field of Education, Science, Culture and Communication.

Part of the team of the UNESCO National Commission of Iceland is Sæunn Stefánsdóttir which, since the beginning of 2019, chairs the UNESCO National Commission of Iceland. At the same time, she is the director of the Institute of Research Centres at the University of Iceland and a consultant to the Rector. Prior to joining the University, she was a political consultant to the Minister of Social Affairs and a political consultant to the Minister of Health Services. With a degree in Business Administration, she is currently completing an MPA in Public Administration.

#### Partner Entity which collaboration started on November 12 2020 and ended on April 30, 2021:

**Name:** PC&A - Consultores de Marketing Estratégico

**Mission:** Head of communication, marketing and promotion

**Role to play in the Project:** Develop the activities associated with the areas of the role's responsibility (actions: 56, 57, 58).

**Experiences relevant to the Project:** PC&A – Consultores de Marketing Estratégico, Lda is a company specialised in the principles of commercial and marketing strategies. Equipped with an integrated set of its own methodologies, capable of capturing the global reality of companies and supporting proposals for action in the various aspects of Strategic Marketing and Commercial Management in the Business-to-Business (B2B) and Business-to-Consumer (B2C) markets, supporting and advising in the strategic orientation of companies and brand. In particular, PC&A specialises in the development of business solutions in the areas of Consulting, Coaching, Research and Training, in a logic of integrated projects aimed at optimising results. The most representative area of the company's activity is Consulting, where it has developed experience in 2 areas:

1. Brand Strategy - PC&A helps companies define their brand strategies by creating and developing a Brand Identity role to ensure a visual response to their positioning or new brand projects.
2. Marketing Planning - PC&A works with its clients to create or improve their Marketing Planning and Communication Plan

Currently, PC&A includes in its portfolio of clients a very diverse range of companies operating in different areas of activities. The PC&A team is coordinated by Professor Pedro Celeste who, since 1996, works as a consultant in strategic marketing in the national, European and African context, and currently directs PC&A, being the coordinator of most of the projects mentioned above. With a Doctorate in Management and Marketing, from the Complutense University of Madrid, he is Associate Professor at the Católica Lisbon School of Business & Economics, an institution that has consistently been acclaimed as one of the best Management Schools in Europe, where he leads several executive education programmes, combining a training and consulting experience for some of the most important national companies. In addition, he is also a regular speaker at conferences and seminars and has participated in more than 80 business and NGO initiatives.

## **g) Partnership Agreement between the Project Promoter and its Partners**

09\_CALL#3Reservas da Biosfera: territórios sustentáveis, comunidades resilientes is implemented under the Partnership format. The Partnership Agreement between the Project Promoter and the Project Partners is set out in Annex II.

## **h) Project Dossier**

The Project dossier complies with Articles 29, 30, 31, 32, 33 and 34 of the 'Guide for Candidates for Financing Environmental Projects, Climate Change and Low Carbon Economy'.

This Dossier shall be organised, where possible, on digital media and shall be constituted in accordance with the following structure:

### **Application**

- ✓ Application form and its annexes;
- ✓ Descriptive memory of the Project;
- ✓ Communication of the approval decision;

#### **Decision**

- ✓ Notification of Project eligibility;
- ✓ Notification of the proposal for an approval decision;
- ✓ Notification of the final approval decision;
- ✓ Reformulation of application data to meet the recommendations of the scoreboard, where applicable;
- ✓ Acceptance term and its annexes;
- ✓ Partnership Agreement and Agreement(s) with the Partners involved, where applicable;
- ✓ Request(s) amendment to the Agreement, where applicable;
- ✓ Other relevant documents, including exchange of information with the Environment Programme Operator.

#### **Payment requests**

- ✓ Copy of the discriminating listings of expenditure submitted in payment applications and their analysis reports issued by the Environment Programme Operator which shall contain the following elements:
  - a) Project identification;
  - b) Identification of the procurement procedure (number and date of the Contract, in the case of expenditure in the context of a public procurement procedure);
  - c) Identification of eligible expenditure (isolating the value of VAT);
  - d) Identification of the expense document (invoice and receipt with the respective number/ref., date) and identification of the means of payment/financial flow;
  - e) Identification of the accounting register;
  - f) In the case of partial imputation of the expenditure contained in a document, identification of the imputation criterion;
  - g) Declaration of conformity of the list submitted and the absence of allocation of expenditure to other financing mechanisms signed by the Project Promoter.
- ✓ documents relating to procurement procedures, including check-list and evidence of compliance with the applicable legal regime;
- ✓ Project-specific bank account opening process;
- ✓ Duly updated statements proving that both the Project Promoter and its Partners are not debtors to the Tax Administration and Social Security;

- ✓ Other relevant documents, including exchange of information with the Environment Programme Operator.

#### **Payments**

- ✓ Bank statements from the deposit of transfers of funds received from the Environment Programme Operator
- ✓ Other relevant documents, including exchange of information with the Environment Programme Operator

#### **Implementation reports**

- ✓ Copy of the implementation progress reports and their attachments, if applicable;
- ✓ Copy of the final implementation report and its annexes, if applicable;
- ✓ Proof of communication of the outcome of the evaluation of the final implementation report;
- ✓ Notifications concerning the issuance of the terms of closure of the Project by the Environment Programme Operator.;
- ✓ Other relevant documents, including exchange of information with the Environment Programme Operator.

#### **Dissemination and publicity of the support of the Environment Program | EEA Grants**

- ✓ Evidence of disclosure and publicity of the support received, according to applicable advertising requirements.

#### **Monitoring and control**

- ✓ Documentation on audits and on-the-spot checks carried out on the Project, their reports, contradictory and elements that evidence compliance with any recommendations / corrections;
- ✓ Schedule of physical and financial achievement;
- ✓ Document proving the VAT situation;
- ✓ Tender processes carried out for the execution of the Project;
- ✓ Documentation on the publicity of the support received.
- ✓ Other relevant documents, including exchange of information with the Environment Programme Operator and other EEA Grants authorities such as attendance lists in workshops, meetings, minutes, materials produced for training or support or equipment as well as verification of the physical presence of human resources related to certain Project activities.

#### Other elements

- ✓ All elements that do not have framing in the above-mentioned items, but essential to the understanding and preservation of the history of the financing of the operation.

## **Annex II**

**PREAMBLE OF THE PARTNERSHIP AGREEMENT ON  
THE IMPLEMENTATION OF PROJECT:**

**09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes**

Considering that in May 2019, in the scope of EEA Financial mechanism 2014-2021, the Programme: “Environment, Climate Change and Low Carbon Economy Programme” between the Financial Mechanism Committee established by Iceland, Liechtenstein and Norway and Portugal was signed.

Considering the expertise and technical capacity of the Project Promotor and the Partner Entities involved in the present Project, as demonstrated by the description of the Partner institutions provided in Annex I. e) of the Contract.

Having the Secretary General for Environment acting as the Programme Operator for the Environment, Climate Change and Low Carbon Economy Programme, in Portugal, within the scope of EEA FM 2014-2021.

This Agreement between the Contracting Parties is established to accomplish the full execution of the Project: Reservas da Biosfera: territórios sustentáveis, comunidades resilientes hereafter referred to as **Project**.

The Agreement is set under the legal provisions:

- a) The Protocol 38c to the EEA Agreement of 08 September 2016;
- b) The Memorandum of Understanding between Iceland, the Principality of Liechtenstein, the Kingdom of Norway and the Portuguese Government on the implementation of the EEA Financial Mechanism 2014-2021;
- c) The Regulation and its annexes, on the implementation of the European Economic Area Financial Mechanism 2014-2021, adopted by the EEA Financial Mechanism Committee pursuant to Article 10.5 of Protocol 38c to the EEA Agreement on 8 September 2016 and confirmed by the Standing Committee of the EFTA States on 23 September 2016;
- d) The Programme agreement between The Financial Mechanism Committee established by Iceland, Liechtenstein and Norway and National Management Unit, representing the Portuguese Republic, for the financing of the Programme “Environment, Climate Change and Low Carbon Economy” in the programme areas of Environment and Ecosystems (PA11) and Climate Change Mitigation and Adaptation (PA13).

This Agreement specifies the roles and responsibilities of the Project Promoter and of the Partner(s) Entity(ies) in relation to their collaboration on the implementation of the **Project**.

The present Partnership Agreement (henceforth referred to as Agreement) is celebrated and mutually agreed upon, being ruled by the terms and conditions defined in the following clauses, and ancillary, by the applicable legal dispositions:

## **CHAPTER I**

### **SUBJECT, NATURE, OBJETIVES AND DURATION**

#### **Clause One**

##### **(Subject and Nature)**

1. The present Agreement's subject is setting the terms and conditions concerning the establishment of a Partnership, in form of institutional co-operation between the Project Promoter and the Partner Entity as well as the rights and obligations of each of the Parties, within the context of the management of the Project identified in Clause Two (henceforth referred to as Project) within the scope of the Environment, Climate Change and Low Carbon Economy Programme, (henceforth referred to as Programme).
2. The main objective of the Project is to value the territories of the Biosphere Reserves as living sustainability laboratories, promoting the quality of life of their inhabitants, particularly in the Portuguese context, and, simultaneously, to increase their visibility, knowledge and management capacity through instruments that promote the affirmation/ praise/ acknowledgement and identity of the 11 territories classified as Biosphere Reserves in Portugal.
3. The institutional co-operation aims at the accomplishment of the Project goal, through the cooperation between the Parties.
4. With the celebration of the present Agreement, it is not intended that the Parties constitute an association or any other entity with a legal personality.

#### **Clause Two**

##### **(Project Identification)**

1. The above mentioned Project is called: Reservas das Biosfera: territórios sustentáveis, comunidades resilientes.
2. The Project falls within the following Expected Outcome of the Programme: "Enhance sustainable development in Biosphere Reserves" and Output 2.1 'Increased Biosphere Reserve Management Capacity';

3. The total cost of the Project is 2.198.666,46 € (two million, one hundred and ninety-eight thousand, six hundred and sixty six Euros and forty-six cents), being shared by Parties In the following manner:
  - a. Quaternaire Portugal, SA, the Promoter entity: 1.112.490,28 € (one million, one hundred and twelve thousand, four hundred and ninety Euros and twenty-eight cents);
  - b. Universidade de Coimbra: 323.243,41 € (three hundred and twenty-three thousand, two hundred and forty-three Euros and forty-one cents);
  - c. Universidade Nova de Lisboa – Faculdade de Ciências Sociais e Humanas: 354.929,88 € (three hundred and fifty-four thousand, nine hundred and twenty-nine Euros and eighty-eight cents);
  - d. Instituto Pedro Nunes, Associação para a Inovação e Desenvolvimento em Ciência e Tecnologia: 159.355,25 € (one hundred and fifty-nine thousand, three hundred and fifty-five Euros and twenty-five cents);
  - e. Ordem dos Biólogos: 39.396,01 € (Thirty-nine thousand, three hundred and ninety-six Euros and one cent);
  - f. KEEP – Knowledge for Peace, People and the Planet, Association/Associação para a Paz, as Pessoas e o Planeta: 73.140,00 € (Seventy-three thousand, one hundred and forty Euros);
  - g. University of Bergen: 48.214,03 € (Forty-eight thousand, two hundred and fourteen Euros and three cents);
  - h. Nordhordland Utviklingsselskap IKS: 42.533,04 € (Forty-two thousand, five hundred and thirty three-Euros and four cents);
  - i. Icelandic National Commission for UNESCO: 10.000,00 € (Ten thousand Euros).
  - j. Entity which collaboration started on 12-11-2020 and ended on April 30, 2021:

PCA – Consultores de Marketing Estratégico, Lda: 35.364,56 € (thirty-five thousand, three hundred and sixty-four Euros and fifty-six cents).
4. Only actions and expenditure incurred by Parties typified in Articles 8.2, 8.3, 8.4, 8.5, 8.6, 8.7, 8.9, 8.12, 8.13, 8.14, 8.15 and 8.16 of the Regulation on the implementation of the European Economic Area Financial Mechanism 2014-2021 shall be financed.
5. Actions financed by the Programme shall not generate direct income during the implementation phase of the Project.

### **Clause Three**

#### **(Components and Actions to be developed)**

1. The objectives to be accomplished by this Partnership require the combined effort of the complementary capabilities of the Contracting Parties which assume the joint responsibility for the full implementation of the Project.

2. In order to achieve the established objectives, the Contracting Parties agree to develop, in Partnership, the components and actions laid down in the following numbers.
3. The **Promoter** shall undertake to develop the following components and actions:
  1. Collection and organization of information related to the nomination of all Biosphere Reserves (BR)
  2. Survey of existing BR action plans, objectives and priorities.
  3. Framing the geostrategic context of BR in existing UNESCO BR networks
  7. Development of the Sustainable Development Plan (SDP) concept for BR
  8. Development of the participatory planning methodology for the SDP
  9. Consultation and validation of the methodological structure for the SDP
  17. Analysis of the dynamics of the socio-economic sector
  20. Identification of priorities and projects in the areas of development and sustainability
  31. Elaboration and participative discussion of the Sustainable Development Plans (SDP) of each BR
  32. SDP public presentations and discussions
  33. Revision and editing of the final versions of the SDP
  34. Selection of 11 pilot actions
  35. Tourism "Script" for the Portuguese Biosphere Reserves - pilot action
  38. Network of Biosphere Reserves shops and virtual store - pilot action
  39. Benchmarking analysis of Sustainable Development (SD) indicators used in UNESCO's RB networks
  40. Architecture of SDP indicators and monitoring system
  41. Consultation and validation of the SDP indicators and monitoring system
  42. Training of BR management teams and other stakeholders in the domain of the SDP Indicators and monitoring System
  44. Creation of the sustainable development barometer for Portuguese Biosphere Reserves
  45. Sustainability certification framework - Portuguese Biosphere Reserves
  46. Assessment of training needs that will support the training planning
  47. Governance skills reinforcement program for BR managers, partners and local agents
  48. Training in planning and participatory methodologies for BR managers regarding the implementation of the SDP
  49. Training associated with the implementation of pilot actions
  54. Program of visits and transfer of experiences between Portuguese BR and donor countries
  55. Final project seminar

56. Marketing Strategy Development
57. Communication Plan Design
58. Strategy and Brand Identity (Tone, Signature and Communication Messages, Logo and Brandbook)
59. Generic Creative Development
60. Creative development of digital communication
61. Productions and promotional materials - Offline
62. Productions and promotional materials - Online
63. Productions and promotional materials - Audiovisual materials
64. Brand Activations
65. Public Relations
66. Media Strategy and Planning
67. Media Strategy and Planning - Press
68. Media Strategy and Planning – Radio
69. Media Strategy and Planning - Digital
71. Development of Awareness Plan for different audiences
72. Local project presentation sessions in each Biosphere reserve including awareness and demonstration actions involving local partners
77. Design and organization of Biosphere Reserve Festivals

Also, the **Promoter** will assure also participation on the following transversal actions:

4. History of BR
5. Elaboration of a database management plan: FAIR data - open access
6. Auscultation / Perception and identification of heritage
10. Digital Infrastructure - distributed management model
11. Digital Infrastructure - Biosphere Reserves website
12. Digital infrastructure - Indicators management dashboard
13. Digital Infrastructure - Research Data Catalogue

Plus, the Promoter will assure all the tasks related to the Global Project Management and Coordination.

- a. The components and actions that shall be undertaken by the Promoter correspond to the eligible amount of 996.882,17 € (Nine hundred and ninety-six thousand, eight hundred and eighty-two Euros and seventeen cents );
  - b. The financial contribution of the Programme provided to the Promoter shall be at the most 996.882,17 € (Nine hundred and ninety-six thousand, eight hundred and eighty-two Euros and seventeen cents ).
4. The **2<sup>nd</sup> Contracting Party, 1<sup>st</sup> Partner Entity** shall undertake to develop the following components and actions:
15. Mapping the BR ecosystem diversity
  16. Identification of potential Ecosystem Services (ES) associated with ecosystems
  21. Selection of key ES for the sustainable development of BR
  22. Selection of indicators and development of methodology for assessing the condition / status of ES
  23. ES condition / status assessment
  24. ES valuation proposal (add value)
  25. ES valuation (assigning value) and its interconnection with the associated economic sectors - pilot action
  26. Mapping BR ES
  27. Proposal of management and conservation measures for BR and ES optimization"
  28. ES modelling to assess the effectiveness of management and conservation measures
  29. Use of key ES in mitigation and adaptation to climate change in BR - pilot action
  30. ES Sustainable Management Manual for BR
  34. Selection of 11 pilot actions
  51. Capacitation of local BR decision makers in implementing the Sustainable Management Plans
  52. Technical workshop on ecosystem services
  54. Program of visits and transfer of experiences between Portuguese RB and donor countries
  73. ES awareness actions
  79. Atlas of Portuguese Biosphere reserves

Also, the **2<sup>nd</sup> Contracting Party** will assure also participation on the following transversal actions:

1. Collection and organization of information related to the nomination of all Biosphere Reserves (BR)
2. Survey of existing BR action plans, objectives and priorities.
4. History of BR

5. Elaboration of a database management plan: FAIR data - open access
6. Auscultation / Perception and identification of heritage
7. Development of the Sustainable Development Plan (SDP) concept for BR
8. Development of the participatory planning methodology for the SDP
10. Digital Infrastructure - distributed management model
11. Digital Infrastructure - Biosphere Reserves website
12. Digital infrastructure - Indicators management dashboard
13. Digital Infrastructure - Research Data Catalogue
20. Identification of priorities and projects in the areas of development and sustainability
35. Tourism "Script" for the Portuguese Biosphere Reserves - pilot action
40. Architecture of SDP indicators and monitoring system
41. Consultation and validation of the SDP indicators and monitoring system
42. Training of BR management teams and other stakeholders in the domain of the SDP Indicators and monitoring System
45. Sustainability certification framework - Portuguese Biosphere Reserves
46. Assessment of training needs that will support the training planning
47. Governance skills reinforcement program for BR managers, partners and local agents
48. Training in planning and participatory methodologies for BR managers regarding the implementation of the SDP
49. Training associated with the implementation of pilot actions
55. Final project seminar
61. Productions and promotional materials - Offline
62. Productions and promotional materials - Online
63. Productions and promotional materials - Audiovisual materials
64. Brand Activations
65. Public Relations
66. Media Strategy and Planning
67. Media Strategy and Planning - Press
68. Media Strategy and Planning - Radio
69. Media Strategy and Planning - Digital
72. Local project presentation sessions in each Biosphere reserve including awareness and demonstration actions involving local partners
77. Design and organization of Biosphere Reserve Festivals

- a. The components and actions that shall be undertaken by the 2<sup>nd</sup> Contracting Party correspond to the eligible amount of 290.107,97 € (two hundred ninety thousand, one hundred and seven Euros and ninety-seven cents );
  - b. The financial contribution of the Programme provided to the 2<sup>nd</sup> Contracting Party shall be at the most 290.107,97 € (two hundred ninety thousand, one hundred and seven Euros and ninety-seven cents ).
5. The 3<sup>rd</sup> **Contracting Party, 2<sup>nd</sup> Partner Entity** shall undertake to develop the following components and actions:
4. History of BR
  5. Elaboration of a database management plan: FAIR data - open access
  6. Auscultation / Perception and identification of heritage
  7. Development of the Sustainable Development Plan (SDP) concept for BR
  8. Development of the participatory planning methodology for the SDP
  10. Digital Infrastructure - distributed management model
  11. Digital Infrastructure - Biosphere Reserves website
  12. Digital infrastructure - Indicators management dashboard
  13. Digital Infrastructure - Research Data Catalogue
  14. Digital guides to cultural and natural heritage of the Biosphere Reserves
  34. Selection of 11 pilot actions
  36. Memories and identities - systematic record of memories
  37. Creation of memory and community spaces - pilot action
  43. Citizen Science for sustainable BR - pilot action
  70. Culture and Education Agenda
  79. Atlas of Portuguese Biosphere reserves
  81. Itinerant exhibition

Also, the 3<sup>rd</sup> **Contracting Party, 2<sup>nd</sup> Partner Entity** will assure also participation on the following transversal actions:

1. Collection and organization of information related to the nomination of all Biosphere Reserves (BR)
2. Survey of existing BR action plans, objectives and priorities.
20. Identification of priorities and projects in the areas of development and sustainability

35. Tourism "Script" for the Portuguese Biosphere Reserves - pilot action
  40. Architecture of SDP indicators and monitoring system
  41. Consultation and validation of the SDP indicators and monitoring system
  42. Training of BR management teams and other stakeholders in the domain of the SDP Indicators and monitoring System
  45. Sustainability certification framework - Portuguese Biosphere Reserves
  46. Assessment of training needs that will support the training planning
  47. Governance skills reinforcement program for BR managers, partners and local agents
  48. Training in planning and participatory methodologies for BR managers regarding the implementation of the SDP
  49. Training associated with the implementation of pilot actions
  55. Final project seminar
  61. Productions and promotional materials - Offline
  62. Productions and promotional materials - Online
  63. Productions and promotional materials - Audiovisual materials
  64. Brand Activations
  65. Public Relations
  66. Media Strategy and Planning
  67. Media Strategy and Planning - Press
  68. Media Strategy and Planning - Radio
  69. Media Strategy and Planning - Digital
  72. Local project presentation sessions in each Biosphere reserve including awareness and demonstration actions involving local partners
  77. Design and organization of Biosphere Reserve Festivals
- 
- a. The components and actions that shall be undertaken by the 3<sup>rd</sup> Contracting Party correspond to the eligible amount of 295.774,90 € (two hundred ninety-five thousand, seven hundred seventy-four Euros and ninety cents );
  - b. The financial contribution of the Programme provided to the 3<sup>rd</sup> Contracting Party shall be at the most 295.774,90 € (two hundred ninety-five thousand, seven hundred seventy-four Euros and ninety cents ).
6. The **4<sup>th</sup> Contracting Party, 3<sup>rd</sup> Partner Entity** shall undertake to develop the following components and actions:
18. Identification of key actors in the socio-economic sector in the BR

- 19. Identification of existing R&DT, innovation and entrepreneurship best practices aligned with sustainable development
- 50. Training of local teams to support economic initiatives and funding opportunities
- 53. Virtual incubation program in Portuguese Biosphere Reserves - pilot action

Also, the **4th Contracting Party, 3<sup>rd</sup> Partner Entity** will assure also participation on the following transversal actions:

- 1. Collection and organization of information related to the nomination of all Biosphere Reserves (BR)
- 2. Survey of existing BR action plans, objectives and priorities
- 4. History of BR
- 5. Elaboration of a database management plan: FAIR data - open access
- 6. Auscultation / Perception and identification of heritage
- 7. Development of the Sustainable Development Plan (SDP) concept for BR
- 8. Development of the participatory planning methodology for the SDP
- 10. Digital Infrastructure - distributed management model
- 11. Digital Infrastructure - Biosphere Reserves website
- 12. Digital infrastructure - Indicators management dashboard
- 13. Digital Infrastructure - Research Data Catalogue
- 20. Identification of priorities and projects in the areas of development and sustainability
- 35. Tourism "Script" for the Portuguese Biosphere Reserves - pilot action
- 40. Architecture of SDP indicators and monitoring system
- 41. Consultation and validation of the SDP indicators and monitoring system
- 42. Training of BR management teams and other stakeholders in the domain of the SDP Indicators and monitoring System
- 45. Sustainability certification framework - Portuguese Biosphere Reserves
- 46. Assessment of training needs that will support the training planning
- 47. Governance skills reinforcement program for BR managers, partners and local agents
- 48. Training in planning and participatory methodologies for BR managers regarding the implementation of the SDP
- 49. Training associated with the implementation of pilot actions
- 55. Final project seminar
- 61. Productions and promotional materials - Offline

- 62. Productions and promotional materials - Online
  - 63. Productions and promotional materials - Audiovisual materials
  - 64. Brand Activations
  - 65. Public Relations
  - 66. Media Strategy and Planning
  - 67. Media Strategy and Planning - Press
  - 68. Media Strategy and Planning – Radio
  - 69. Media Strategy and Planning - Digital
  - 72. Local project presentation sessions in each Biosphere reserve including awareness and demonstration actions involving local partners
  - 77. Design and organization of Biosphere Reserve Festivals
- a. The components and actions that shall be undertaken by the **4th Contracting Party, 3rd Partner Entity** correspond to the eligible amount of 132.796,04 € (one hundred and thirty-two thousand, seven hundred and ninety-six Euros and four cents);
  - b. The financial contribution of the Programme provided to the 4th Contracting Party shall be at the most 132.796,04 € (one hundred and thirty-two thousand, seven hundred and ninety-six Euros and four cents).
7. The **5th Contracting Party, 4th Partner Entity** shall undertake to develop the following components and actions:
- 74. Planning of the National Biosphere Olympics
  - 75. Communication and dissemination of the BR Olympics
  - 76. BR Olympics

Also, the **5th Contracting Party, 4th Partner Entity** will assure also participation on the following transversal actions:

- 1. Collection and organization of information related to the nomination of all Biosphere Reserves (BR)
- 2. Survey of existing BR action plans, objectives and priorities
- 4. History of BR
- 5. Elaboration of a database management plan: FAIR data - open access
- 6. Auscultation / Perception and identification of heritage
- 7. Development of the Sustainable Development Plan (SDP) concept for BR
- 8. Development of the participatory planning methodology for the SDP

10. Digital Infrastructure - distributed management model
  11. Digital Infrastructure - Biosphere Reserves website
  12. Digital infrastructure - Indicators management dashboard
  13. Digital Infrastructure - Research Data Catalogue
  20. Identification of priorities and projects in the areas of development and sustainability
  35. Tourism "Script" for the Portuguese Biosphere Reserves - pilot action
  40. Architecture of SDP indicators and monitoring system
  41. Consultation and validation of the SDP indicators and monitoring system
  42. Training of BR management teams and other stakeholders in the domain of the SDP Indicators and monitoring System
  45. Sustainability certification framework - Portuguese Biosphere Reserves
  46. Assessment of training needs that will support the training planning
  47. Governance skills reinforcement program for BR managers, partners and local agents
  48. Training in planning and participatory methodologies for BR managers regarding the implementation of the SDP
  49. Training associated with the implementation of pilot actions
  55. Final project seminar
  61. Productions and promotional materials - Offline
  62. Productions and promotional materials - Online
  63. Productions and promotional materials - Audiovisual materials
  64. Brand Activations
  65. Public Relations
  66. Media Strategy and Planning
  67. Media Strategy and Planning - Press
  68. Media Strategy and Planning – Radio
  69. Media Strategy and Planning - Digital
  72. Local project presentation sessions in each Biosphere reserve including awareness and demonstration actions involving local partners
  77. Design and organization of Biosphere Reserve Festivals
- a. The components and actions that shall be undertaken by the **5th Contracting Party, 4th Partner Entity** correspond to the eligible amount of 37.663,34 € (thirty-seven thousand, six hundred and sixty-three Euros and thirty-four cents);

- b. The financial contribution of the Programme provided to the **5th Contracting Party, 4th Partner Entity** shall be at the most 37.663,34 € (thirty-seven thousand, six hundred and sixty-three Euros and thirty-four cents).
- 8. The **6th Contracting Party, 5th Partner Entity** shall undertake to develop the following components and actions:
  - 78. BioKeepers - Club of Friends and caregivers of BR
  - 80. Knowledge extension

Also, the **6th Contracting Party, 5th Partner Entity** will assure also participation on the following transversal actions:

- 1. Collection and organization of information related to the nomination of all Biosphere Reserves (BR)
- 2. Survey of existing BR action plans, objectives and priorities
- 4. History of BR
- 5. Elaboration of a database management plan: FAIR data - open access
- 6. Auscultation / Perception and identification of heritage
- 7. Development of the Sustainable Development Plan (SDP) concept for BR
- 8. Development of the participatory planning methodology for the SDP
- 10. Digital Infrastructure - distributed management model
- 11. Digital Infrastructure - Biosphere Reserves website
- 12. Digital infrastructure - Indicators management dashboard
- 13. Digital Infrastructure - Research Data Catalogue
- 20. Identification of priorities and projects in the areas of development and sustainability
- 35. Tourism "Script" for the Portuguese Biosphere Reserves - pilot action
- 40. Architecture of SDP indicators and monitoring system
- 41. Consultation and validation of the SDP indicators and monitoring system
- 42. Training of BR management teams and other stakeholders in the domain of the SDP Indicators and monitoring System
- 45. Sustainability certification framework - Portuguese Biosphere Reserves
- 46. Assessment of training needs that will support the training planning
- 47. Governance skills reinforcement program for BR managers, partners and local agents
- 48. Training in planning and participatory methodologies for BR managers regarding the implementation of the SDP

- 49. Training associated with the implementation of pilot actions
- 55. Final project seminar
- 61. Productions and promotional materials - Offline
- 62. Productions and promotional materials - Online
- 63. Productions and promotional materials - Audiovisual materials
- 64. Brand Activations
- 65. Public Relations
- 66. Media Strategy and Planning
- 67. Media Strategy and Planning - Press
- 68. Media Strategy and Planning – Radio
- 69. Media Strategy and Planning - Digital
- 72. Local project presentation sessions in each Biosphere reserve including awareness and demonstration actions involving local partners
- 77. Design and organization of Biosphere Reserve Festivals
  - a. The components and actions that shall be undertaken by the **6th Contracting Party, 5th Partner Entity** correspond to the eligible amount of 73.140,00 € (seventy-three thousand, one hundred and forty Euros);
  - b. The financial contribution of the Programme provided to the 6th Contracting Party, 5th Partner Entity shall be at the most 73.140,00 € (seventy-three thousand, one hundred and forty Euros).
- 9. The **7th Contracting Party, 6th Partner Entity** shall undertake to develop the following components and actions:
  - 15. Mapping the BR ecosystem diversity
  - 16. Identification of potential Ecosystem Services (ES) associated with ecosystems
  - 21. Selection of key ES for the sustainable development of BR
  - 22. Selection of indicators and development of methodology for assessing the condition / status of ES
  - 23. ES condition / status assessment
  - 24. ES valuation proposal (add value)
  - 26. Mapping BR ES
  - 28. ES modelling to assess the effectiveness of management and conservation measures
  - 29. Use of key ES in mitigation and adaptation to climate change in BR - pilot action
  - 51. Capacitation of local BR decision makers in implementing the Sustainable Management Plans
  - 52. Technical workshop on ecosystem services

Also, the **7th Contracting Party, 6th Partner Entity** will assure also participation on the following transversal actions:

- 54. Program of visits and transfer of experiences between Portuguese BR and donor countries
- 55. Final project seminar
  - a. The components and actions that shall be undertaken by the **7th Contracting Party, 6th Partner Entity** correspond to the eligible amount of 40.178,03 € (forty thousand, one hundred and seventy eight Euros and three cents);
  - b. The financial contribution of the Programme provided to the 7th Contracting Party, 6th Partner Entity shall be at the most 40.178,03 € (forty thousand, one hundred and seventy eight Euros and three cents).
- 10. The **8th Contracting Party, 7th Partner Entity** shall undertake to develop the following components and actions:
  - 21. Selection of key ES for the sustainable development of BR
  - 24. ES valuation proposal (add value)
  - 26. Mapping BR ES
  - 51. Capacitation of local BR decision makers in implementing the Sustainable Management Plans
  - 52. Technical workshop on ecosystem services

Also, the **8th Contracting Party, 7th Partner Entity** will assure also participation on the following transversal actions:

- 54. Program of visits and transfer of experiences between Portuguese BR and donor countries
- 55. Final project seminar
  - a. The components and actions that shall be undertaken by the 8th Contracting Party, 7th Partner Entity correspond to the eligible amount of 36.701,04 € (thirty-six thousand, seven hundred and one Euros and four cents);
  - b. The financial contribution of the Programme provided to the 8th Contracting Party, 7th Partner Entity shall be at the most 36.701,04 € (thirty-six thousand, seven hundred and one Euros and four cents).
- 11. The **9th Contracting Party, 8th Partner Entity** shall undertake to develop the following components and actions:
  - 54. Program of visits and transfer of experiences between Portuguese BR and donor countries
  - 55. Final project seminar

- a. The components and actions that shall be undertaken by the **9th Contracting Party, 8th Partner Entity** correspond to the eligible amount of 10.000,00 € (ten thousand Euros);
- b. The financial contribution of the Programme provided to the 9th Contracting Party, 8th Partner Entity shall be at the most 10.000,00 € (ten thousand Euros).

#### Clause Four

##### (Duration)

1. This Agreement is effective from the day of its signature, and replaces the previous Partnership Agreement, signed on 14/12/2020 .

This Agreement shall be effective for the period of the implementation of the Project (between 12/11/2020 and 11/05/2023).

The obligations and content of this Agreement may be extended beyond the end of the Project if the Parties find it convenient to maintain the Partnership. In such case, an extension of the term of the present Agreement will be made, by means of an amendment.

2. Without prejudice for the preceding number, the duties, responsibilities and obligations of the Parties towards the Programme will be maintained, in the terms and for the period of time defined in the respective Project Contract, or in its eventual extension, by means of an amendment.

## CHAPTER II

### BUDGET, PLAN AND OTHER FINANCIAL ISSUES

#### Clause Five

##### (Budget and Financial Plan)

The Contracting Parties agree to fulfil the detailed budget, including cost per component, as well as the respective financial plan and completion milestones, as defined in the Project Contract and which is attached to this Partnership Agreement.

#### Clause Six

##### (Financial Contribution)

1. The financial contribution of the Contracting Parties to complete the Project funding up to a maximum of 0% of the necessary contribution, shall be, in accordance with the financial plan:
  - a. **Promoter 1<sup>st</sup> Contracting Party:** 1.112.490,28 € (one million, one hundred and twelve

Programme Environment, Climate Change and Low Carbon Economy

09\_CALL#3\_ Reservas da Biosfera: territórios sustentáveis, comunidades resilientes

Contract Amendment

thousand, four hundred and ninety Euros and twenty-eight cents), being the contribution up to the amount of 0,00€ (zero Euros);

- b. **1<sup>st</sup> Partner Entity, 2<sup>nd</sup> Contracting Party:** 323.243,41 € (three hundred and twenty-three thousand, two hundred and forty-three Euros and forty-one cents), being the contribution up to the amount of 0,00€ (zero Euros);
  - c. **2<sup>nd</sup> Partner Entity, 3<sup>rd</sup> Contracting Party:** 354.929,88 € (three hundred and fifty-four thousand, nine hundred and twenty-nine Euros and eighty-eight cents), being the contribution up to the amount of 0,00€ (zero Euros);
  - d. **3<sup>rd</sup> Partner Entity, 4<sup>th</sup> Contracting Party:** 159.355,25 € (one hundred and fifty-nine thousand, three hundred and fifty-five Euros and twenty-five cents), being the contribution up to the amount of 0,00€ (zero Euros);
  - e. **4<sup>th</sup> Partner Entity, 5<sup>th</sup> Contracting Party:** 39.396,01 € (Thirty-nine thousand, three hundred and ninety-six Euros and one cent), being the contribution up to the amount of 0,00€ (zero Euros);
  - f. **5<sup>th</sup> Partner Entity, 6<sup>th</sup> Contracting Party:** 73.140,00 € (Seventy-three thousand, one hundred and forty Euros), being the contribution up to the amount of 0,00€ (zero Euros);
  - g. **6<sup>th</sup> Partner Entity, 7<sup>th</sup> Contracting Party:** 48.214,03 € (Forty-eight thousand, two hundred and fourteen Euros and three cents), being the contribution up to the amount of 0,00€ (zero Euros);
  - h. **7<sup>th</sup> Partner Entity, 8<sup>th</sup> Contracting Party:** 42.533,04 € (Forty-two thousand, five hundred and thirty three Euros and four cents), being the contribution up to the amount of 0,00€ (zero Euros);
  - i. **8<sup>th</sup> Partner Entity, 9<sup>th</sup> Contracting Party:** 10.000,00 € (Ten thousand Euros), being the contribution up to the amount of 0,00€ (zero Euros).
2. The deposit of the financial contribution shall be demonstrated by the bank extract associated with the Project.

## Clause Seven

### (Indirect Costs)

1. The indirect costs in Project (overheads) will be identified in accordance with Art. 8.5.1 (a), (b), (c) or (d), Art. 8.5.2 and 8.5.3 of the EEA Regulation.
2. Based on the abovementioned regulation, the maximum amount allocates to the indirect costs are as follows:

- a) The indirect costs in Project (overheads) for the **Promoter** will be identified in accordance with Art. 8.5.1 (b) of the EEA Regulation, with the maximum amount: 115.608,11 € ( one hundred and fifteen thousand, six hundred and eight Euros and eleven cents);
  - b) The indirect costs in Project (overheads) for the **1<sup>st</sup> Partner Entity, 2<sup>nd</sup> Contracting Party** will be identified in accordance with Art. 8.5.1 (c) of the EEA Regulation, with the maximum amount: 33.135,44 € (thirty-three thousand, one hundred and thirty-five Euros and forty-four cents);
  - c) The indirect costs in Project (overheads) for the **2<sup>nd</sup> Partner Entity, 3<sup>rd</sup> Contracting Party** will be identified in accordance with Art. 8.5.1 (b) of the EEA Regulation, with the maximum amount: 59.154,98 € (fifty-nine thousand, one hundred and fifty-four Euros and ninety-eight cents);
  - d) The indirect costs in Project (overheads) for the **3<sup>rd</sup> Partner Entity, 4<sup>th</sup> Contracting Party** will be identified in accordance with Art. 8.5.1 (b) of the EEA Regulation, with the maximum amount: 26.559,21 € (twenty-six thousand, five hundred and fifty-nine Euros and twenty-one cents);
  - e) The indirect costs in Project (overheads) for the **4<sup>th</sup> Partner Entity, 5<sup>th</sup> Contracting Party** will be identified in accordance with Art. 8.5.1 (b) of the EEA Regulation, with the maximum amount: 1.732,67 € (One thousand seven hundred and thirty-two Euros and sixty-seven cents);
  - f) There is no indirect costs in Project (overheads) for the **5<sup>th</sup> Partner Entity, 6<sup>th</sup> Contracting Party**;
  - g) The indirect costs in Project (overheads) for the **6<sup>th</sup> Partner Entity, 7<sup>th</sup> Contracting Party** will be identified in accordance with Art. 8.5.1 (b) of the EEA Regulation, with the maximum amount: 8.036,00 € (Eight thousand and thirty-six Euros);
  - h) The indirect costs in Project (overheads) for the **7<sup>th</sup> Partner Entity, 8<sup>th</sup> Contracting Party** will be identified in accordance with Art. 8.5.1 (b) of the EEA Regulation, with the maximum amount: 5.832,00 € (Five thousand, eight hundred and thirty two Euros);
  - i) There is no indirect costs in Project (overheads) for the **8<sup>th</sup> Partner Entity, 9<sup>th</sup> Contracting Party** .
3. Each of the Contracting Parties is responsible for justifying the amount and percentage to be used, in conformity with the detailed methodology published on the Programme's website – estimated cost method.

## Clause Eight

### (Advanced Payments)

1. The Partner Entity is entitled to advanced payments, which shall be performed through the Project Promotor, considering the percentage of work previously distributed to the Partner Entity and the funds transfer from the Programme Operator through its designated channels, in conformity with the rules of the Programme.

#### **Clause Nine**

##### **(Monetary Unit and Currency Exchange)**

1. The Parties agree that the monetary unit of the Partnership is the Euro.
2. The currency exchange rule for expenditure and its reimbursement will be on the basis of Art. 8.6 of the EEA Regulation.

#### **Clause Ten**

##### **(Rules regarding Market Risk from Changes in Foreign Exchange)**

All market risk from variations in the foreign exchange rate shall be assumed by the Contracting Party who submitted the expenditure in foreign currency.

### **CHAPTER III**

#### **COMMUNICATION BETWEEN THE PARTIES**

#### **Clause Eleven**

##### **(Communication in writing and receipt)**

1. Any notification, notice, agreement, approval, observation or decision concerning this Agreement shall be communicated in writing to the other Party, in the standard format, whenever this is provided, together with all the necessary approvals and signatures.
2. Whenever this Agreement specifies Contractual deadlines for submitting a communication in written form, the Party responsible for its submission shall take all the necessary measures to assure the timely reception of that communication by the other Party, and will require a confirmation receipt.
3. Parties will further use normal means of communication throughout the Project execution, such as e-mail, telephone, video conferencing etc., in addition to the regular face to face meetings, which will be held in convenient and agreed locations.

#### **Clause Twelve**

##### **(Official addresses)**

1. The official addresses for all the documents are the following:
  - a) For the Project **Promoter**: Elisa Pérez Babo, Rua Tomás Ribeiro nº 412, 2º andar. 4450-295 Matosinhos (Portugal);
  - b) For the **1<sup>st</sup> Partner Entity, 2<sup>nd</sup> Contracting Party**: Cláudia Cavadas, Paço das Escolas, 3004-531 Coimbra (Portugal);
  - c) For the **2<sup>nd</sup> Partner Entity, 3<sup>rd</sup> Contracting Party**: João Sàágua, Campus de Campolide, 1099-032 Lisboa (Portugal);
  - d) For the **3<sup>rd</sup> Partner Entity, 4<sup>th</sup> Contracting Party**: Maria Teresa Ferreira Soares Mendes, Rua Pedro Nunes, 3030 - 199 Coimbra (Portugal);
  - e) For the **4<sup>th</sup> Partner Entity, 5<sup>th</sup> Contracting Party**: Maria de Jesus Silva Fernandes, Rua Cidade de Rabat, 38 – r/cr.1500 – 164 Lisboa (Portugal);
  - f) For the **5<sup>th</sup> Partner Entity, 6<sup>th</sup> Contracting Party**: Inês Filipa Abreu de Castaño, Rua Carolina Michaelis de Vasconcelos, n.º 28, 7.º direito. 1500-145 Lisboa (Portugal);
  - g) For the **6<sup>th</sup> Partner Entity, 7<sup>th</sup> Contracting Party**: Magnus Holtermann, Muséplassen 1, Postboks 7800, 5020 Bergen (Norway);
  - h) For the **7<sup>th</sup> Partner Entity, 8<sup>th</sup> Contracting Party**: Rune Heradstveit, Kvassnesvegen 23, 5914 Isdalstø (Norway);
  - i) For the **8<sup>th</sup> Partner Entity, 9<sup>th</sup> Contracting Party**: Áslaug Dóra Eyjólfsdóttir, Sölvhólgata 4, 101 Reykjavík (Iceland).
2. The contact persons are:
  - a) For the Project **Promoter**: Elisa Pérez Babo, email: elisab@quaternaire.pt; and António Abreu, email: aabreu@quaternaire.pt ;
  - b) For the **1<sup>st</sup> Partner Entity, 2<sup>nd</sup> Contracting Party**: Cláudia Cavadas, email: vr.claudia.cavadas@uc.pt; also RSO-Research Support Office, email: dapi@uc.pt;
  - c) For the **2<sup>nd</sup> Partner Entity, 3<sup>rd</sup> Contracting Party**: João Sàágua, email: research@fcsn.unl.pt;
  - d) For the **3<sup>rd</sup> Partner Entity, 4<sup>th</sup> Contracting Party**: Maria Teresa Ferreira Soares Mendes and Carlos Sequeira, email: cerqueira@ipn.pt;
  - e) For the **4<sup>th</sup> Partner Entity, 5<sup>th</sup> Contracting Party**: Maria de Jesus Silva Fernandes, email: maria.jesus.fernandes@ordembiologos.pt;
  - f) For the **5<sup>th</sup> Partner Entity, 6<sup>th</sup> Contracting Party**: : Inês Filipa Abreu de Castaño, email: inesabreucastano@gmail.com;
  - g) For the **6<sup>th</sup> Partner Entity, 7<sup>th</sup> Contracting Party**: Magnus Holtermann, email: post@fa.uib.no;
  - h) For the **7<sup>th</sup> Partner Entity, 8<sup>th</sup> Contracting Party**: Rune Heradstveit, email: rune.heradstveit@nordhordland.net;
  - i) For the **8<sup>th</sup> Partner Entity, 9<sup>th</sup> Contracting Party**: Áslaug Dóra Eyjólfsdóttir, email: aslaug.dora.eyjolfsdottir@mrn.is.
3. The main contact persons may provide additional collaborators contact data for specific issues.

4. The Parties will communicate in writing, within 5 working days, any change concerning the official addresses mentioned in the previous paragraph.

## **CHAPTER IV**

### **ROLES AND RESPONSABILITIES OF PROMOTER AND PARTNER ENTITY**

#### **Clause Thirteen**

##### **(Joint Commitment of the Parties)**

1. The Parties are committed to carry out their tasks and responsibilities related to the implementation of this Agreement, based on an appropriate management, the principles of transparency and Partnership, according to the national legislation in force and the legal framework of the EEA Financial Mechanism 2014-2021 (art. 1.3. of the EEA Regulation) in this domain.
2. The Parties undertake the responsibility to inform each other regularly on the activities related to the implementation of the EEA Financial Mechanism 2014-2021.
3. The progress of the Project or the analysis of aspects related to this Agreement shall be discussed in quarterly meetings, or whenever necessary.
4. The Parties agree to use the information and documents obtained or to which they have access during the implementation period of the programme/Project according to this Agreement in accordance with the national legislation in force and legal framework of the EEA Financial Mechanism 2014-2021 (art. 1.3. of the EEA Regulation), with respect to the legal provisions on transparency, access to information and personal data protection.

#### **Clause Fourteen**

##### **(Confidentiality)**

1. Without prejudice to paragraphs 3 and 4 of this Article, the Partners undertake to reciprocally maintain the confidentiality of the information transmitted under this Agreement which may give rise to intellectual property protection, as well as negotiations between whether or with third Parties, for the purpose of pursuing the object of this Agreement, by not disclosing to third Parties, by publishing or by any means making known, any information relating to the products, to the Projects, or to the Partners, without the prior written consent of the other members.
2. The confidentiality obligation shall apply to employees of the Partners who have access to the products and information relating to them or to the Project.
3. Results that do not give rise to intellectual property rights may be disseminated, notably through

technical and scientific conferences, publication in scientific or technical journals, or stored in open access databases.

4. In addition to the provisions of paragraphs 1 and 3 of this Article, the following shall also be excluded from the obligation of confidentiality: information about the products or the Project which:
  - a) Do not give rise to protection by title of intellectual property;
  - b) Be in the public domain at the time of disclosure;
  - c) Are published or become public domain for reasons unrelated to any act of responsibility of the Party that has disclosed it.

#### **Clause Fifteen**

##### **(Intellectual Property Rights)**

1. The intellectual property rights obtained by each of the members of the Partnership prior to the beginning of the Project and which are used herein remain the property of their owners.
2. Intellectual property rights over the results of the implementation of the Project shall belong to the members who have contributed to its creation.
3. In the case of use of the results referred to in the preceding paragraphs, an agreement will be made in advance by the Partner(s), determining the terms of said use and the amount of compensation to be paid to the remaining (s) Partner (s), which shall be equivalent to the market prices for Intellectual Property rights resulting from such activity.
4. Members of the Partnership shall take appropriate measures to demonstrate, promote and disseminate Project results which, for any reason, are not capable of generating intellectual property rights and constitute a Contractual obligation.
5. The Parties to this Agreement have equal rights to unlimited use of the reports, manuals and corresponding documents resulting from the Project.

#### **Clause Sixteen**

##### **(Promoter Obligations)**

1. The leader of the Partnership is the Promoter.
2. The Promoter's responsibilities as a leader of the Partnership relate to:
  - a) Undertake the general coordination of the Partnership;
  - b) Manage the EEA Grants financial contribution regarding its allocation and payment to Partner Entity, according to the Partnership agreement, and any decisions set out in the Programme Agreement.

- c) Submit payment requests to the Programme Operator regarding the eligible costs of the Partner Entity(ies);
- d) Transfer the Partner Entity(ies) amounts using the bank account dedicated to the Project;
- e) Ensure the communication with the Programme Operator about any issue related to the execution of the Project.
- f) Certify that, during the Agreement activity, the value of the budget agreements does not exceed the total Project budget allocated to the Parties.
- g) Ensure efficient payments to the Partner Entity based on appropriate documentation, in accordance with Portuguese law and EEA Regulation.
- h) Ensure the preservation of the assumptions considered for the approval of the grant;
- i) Maintain a duly organised folder within its facilities, containing all documents susceptible of confirming the information and statements given during the Project, as well as all expenditure documentation; this folder being maintained for a period of four years;
- j) Respect the rules regarding information and advertising defined for the Programme;
- k) Ensure, in general, the fulfilment of all obligations assumed by the Promoter in the Contract that shall be celebrated with the Programme Operator, including control and monitoring of the Project;
- l) Ensure the information of the Project implementation progress to the Partner entities. The Promoter shall provide copies of progress and financial reports upon request of Partner entity, and each year;
- m) Perform all tasks mentioned previously with respect to the national regulations and the regulation of the EEA Financial Mechanism 2014-2021 (Art.1.3. of the EEA Regulation).

### **Clause Seventeen**

#### **(Partner Entity Obligation(s))**

1. Without prejudice to all other obligations defined in this Contract, the Partner Entity agrees to:
  - a) Start, with the Promoter, the implementation of the Project no later than/within of 30 (thirty) days after the date of communication of the grant decision.
  - b) Execute diligently the components/actions of the Project which are under their responsibility, in accordance with the Contract and its Annexes, and reach the goals or objectives set in the Project;
  - c) Carry out all legal obligations in due time, such as the fiscal and social security obligations to which they are bound to;

- d) Provide, within the established timeframes, all elements which are requested by the Program Operator or any of the competent authorities for monitoring, control and audit of the implementation of the Project;
- e) Communicate to the Promoter any alteration or occurrence which undermines any assumption considered for the approval of the Project or its execution;
- f) Maintain the Project's accounts organised;
- g) Maintain a duly organised folder within its facilities, containing all documents susceptible of confirming the information and statements given during the Project, as well as all expenditure documentation; this folder being maintained for a period of five years;
- h) Do not use the assigned Project's grant for any other purpose or in any other way, in whole or in part, without prior permission from the Promoter and the Programme Operator;
- i) Ensure collaboration with the Promoter, in accordance with the EEA Regulation, in preparation of the interim and final reports on the technical and financial implementation of the Project;
- j) Ensure the maintenance of the assumptions considered for the approval of the grant;
- k) Respect the rules regarding information and advertising defined for the Programme;
- l) Allow control and monitoring as defined by the Programme;
- m) The costs claimed by each Donor Project Partner must be certified by an independent and certified auditor, stating that the claimed costs are incurred in accordance with the EEA Financial Mechanism 2014-2021 Regulation, the national law and accounting practices of the Project Partner's country or a report issued by a competent and independent public officer recognised by the relevant national authorities as having a budget and financial control capacity over the entity incurring the costs and who has not been involved in the preparation of the financial statements, certifying that the claimed costs are incurred in accordance with this Regulation, the relevant law and national accounting practices.

## **CHAPTER V**

### **MONITORING AND CONTROL**

#### **Clause Eighteen**

##### **(Monitoring and Control of the Project)**

1. The Project's implementation shall be subject to monitoring by the Programme Operator, which supervises work progress and execution of expenditure, in order to achieve the goals and objectives agreed upon.

2. The Parties shall cooperate in the production of the reports that the Promoter is obliged to present under the terms of the Project Contract.
3. Projects are subject at all times, to the possibility of financial, physical and technical verification actions by the Promoter or, at its request, by the Programme Operator.
4. The Promoter can be audit at any stage by the Program Operator, on site or by request of a sample, whenever an occurrence of mandatory verification is identified or when there is reasonable doubt surrounding the circumstances of the physical or financial implementation of the Project.
5. The financial verification of the Project is based on the expenditure documents presented by the Partner Entity(ies) to the Promoter and aims to confirm:
  - a) The legality of the expenditure documents registered in the expenditure statements;
  - b) The compliance of the actions taken with the objectives established in the application;
  - c) The full compliance with payment procedures, including proof of financial flows, appropriateness of respective date and validity of receipts;
  - d) A proper accounting of Project expenses in accordance with applicable accounting standards;
  - e) The formality of stamping the Project's original expenditure documents, as well as their correct accounting treatment.
6. The Parties must grant access to the EEA Programme's auditors, or any other entities which are legally enabled to do so, such as those mentioned in Chapter Ten of the Regulation on the Implementation of the European Economic Area Financial Mechanism 2014-2021, directly or through entities designated by them.

## **CHAPTER VI**

### **AGREEMENT VICISSITUDES**

#### **Clause Nineteen**

##### **(Fortuitous Events and Force Majeure)**

1. The obligations arising from this Agreement shall be suspended whenever their fulfilment is not possible due to occurrence of a fortuitous or force majeure event, as legally defined, being the Party(ies) unable to fulfil it obliged to inform this fact in writing, within 2 (two) working days, as well as the foreseen date in which the fortuitous or of force majeure situation will be normalized, which cannot exceed more than a 3 months renewable period, subject to the assessment carried ou by the Programme Operator .

2. For the purposes of the previous paragraph, only those obligations in which a Party is completely unable to fulfil because of fortuitous events or force majeure are suspended, leaving all remaining obligations unchanged and in full force.
3. Cases of force majeure are those that, not being foreseeable or surmountable, produce an effect regardless of the Parties' will. Namely, force majeure cases can be: natural phenomena or disasters, epidemics, governmental restrictions, wars, revolutions, acts of piracy or sabotage, labour strikes and occupation of manufacturing facilities.

### **Clause Twenty**

#### **(Cession of Agreement Position – Transmission of Rights and Obligations)**

1. The cession of the Promoter's and/or of the Partner Entity(ies) Contractual position can only take place for reasons duly justified and after authorization by the Programme Operator.
2. The Programme Operator may, at any moment, yield its position to a third Party, namely to the Financial Mechanism Office Financial Mechanism Committee or to a Person or Entity designated by it, cession to which the Promoter gives its unconditional consent.
3. In case of cession of the agreement between the Financial Mechanism Committee the Financial Mechanism Office, regardless of the reason, the rights and obligations of the Programme Operator which result from the present Agreement are transmitted automatically to that Office or to the Person or Entity designated by it, leaving the Project Promoter legally bound before that Person or Entity in the same legal manner as previously with the Programme Operator.

### **Clause Twenty-One**

#### **(Agreement Amendments)**

This Agreement constitutes the set of terms and conditions which the Parties have agreed to, regarding the matters under its scope, which may not be amended or modified without a written consent by all Parties, in the form of an Amendment to the present Agreement upon acknowledgment and consent by the Programme Operator, through its designated channels.

### **Clause Twenty-Two**

#### **(Non Exercise of Rights)**

The non exercise (total or partial) of the rights and powers arising from this Agreement, by any of the Parties, in no event may signify a waiver of such rights or powers or lead to their termination; the same shall keep valid and effective notwithstanding that non-exercise.

### **Clause Twenty-Three**

#### **(Invalidity or Agreement Impossibility)**

In case this Agreement is declared void or voidable, in whole or in part, or its accomplishment is made impossible by legal disposition or by a third Party, the Parties shall complete all actions and celebrate all necessary deals in order to achieve the same result, without the vices that determined the nullity or annulment of the Agreement or to make possible its full completion.

### **Clause Twenty-Four**

#### **(Restructuring or reorganization)**

If one Party is subject to the procedure of restructuring or reorganization, this procedure will be communicated to the other Party by written notice, with a confirmation of receipt. This shall not exclude nor relieve the Party for its fulfilled tasks. Otherwise, in what concerns the ongoing or future actions, the Project Promoter will take action to amend this Agreement based on national legislation in force and/ or legal framework of the European Economic Area Financial Mechanism 2014-2021 (Art.1.3. of the EEA Regulation) applicable concerning the liability of any nature this would be.

### **Clause Twenty-Five**

#### **(Disputes)**

Any dispute between the Parties concerning the construction, meaning or effect of this agreement or the rights or liabilities of the Parties hereunder, or any matter arising out of the same or connected therewith shall be referred to arbiters to be agreed by both parts or, in default of such agreement, nominated on the application of either Party.

## **CHAPTER VII**

### **OTHER PROVISIONS**

### **Clause Twenty-Six**

#### **(Applicable law and jurisdiction)**

1. The provisions of this Agreement shall be governed, interpreted, understood and applied in accordance with the national legislation in force and the legal framework of the EEA Financial Mechanism 2014-2021 (Art.14.3. of the EEA Regulation) in the area PA 11/PA 13(chose).
2. If there are any inconsistencies or differences between the provisions of this Agreement on the one hand, and of the national legislation in force or the EEA Regulation, on the other hand, the latter shall

prevail.

3. In all matters not expressly provided for, the legal provisions of the Portuguese legal system shall apply, without prejudice to the provisions contained in the Regulation on the Implementation of the European Economic Area Financial Mechanism 2014-2021 and the Programme Operator rules governing the Programme.
4. The Parties are obliged to explore all possibilities in order to reach an amiable solution, where differences in interpretation or application of the present Agreement arise.

This Agreement has been concluded today and is signed in 9 originals, one for each Contracting Party. In addition, another original copy shall be signed and submitted to the Programme Operator to be annexed to the Project Contract.
